Summary

Highly motivated and technically adept Computer Science professional with a strong foundation in software development and a passion for creating innovative solutions. Proficient in programming languages, complemented by expertise in Git and GitHub for version control. Skilled in developing responsive, user-centric applications, with hands-on experience in integrating APIs and designing full-stack web solutions.

Technical Skills

- Programming Languages : Python ,C , JavaScript , MongoDB, ReactJS, NodeJS, ExpressJS , SQL
- Software Development Tools: Git , Github, VS-Code
- Data Analyst Tools : Tableau ,Power BI, MS Excel

Interpersonal Skills

- | | | |
|------------------------------|-----------------|--------------|
| • Teamwork and Collaboration | Problem-Solving | Adaptability |
|------------------------------|-----------------|--------------|

Work Experience

- **Back Office Executive** – Tata Power Solar – Kanpur,UP (Nov 2023 – June 2024)
 - Managed operational datasets and maintained accurate digital records using Excel.
- **Web Developer** - Brijwasi Chains India Pvt Ltd -Kanpur ,UP (June 2023 – Nov 2023)
 - Managed and maintained company websites using WordPress , Integrated and handled APIs ,Updated website content, plugins, and backend settings.

Education

- **Masters Of Computer Application(MCA)(AI-ML)** - Chandigarh University, Punjab (2024-2026)
- **Bachelor of Computer Application (BCA)** - Makhanlal Chaturvedi University, Bhopal (2020-23)

Projects

- **AI Enterprise Knowledge Intelligence System** - Python LangChain, RAG, ChromaDB, Ollama
 - Developed a full-stack Generative AI application for intelligent document querying and enterprise knowledge management using RAG architecture.
 - Built AI-powered semantic search and document question-answering system.
- **AI Assistant Web Application**- React , Javascript , Grok API, Firebase - <https://lokesh-ai.web.app>
 - Developed a responsive AI chatbot web application using Grok LLM Api.
- **Human Emotion Feedback using Artificial Intelligence and Machine Learning** - Python, OpenCV
 - Developed an AI-based emotion detection system using facial recognition.
 - Implemented machine learning models for real-time emotion analysis.
- **Railway Booking Website** - MERN Stack
 - Built a full-stack railway booking platform using MongoDB, ExpressJS, ReactJS, and NodeJS.
 - Implemented authentication and booking features Using REST APIs for ticket booking.
- **Creating Backend Api's**
 - REST API Using Postman ,Thunder Client
- **AI Meeting Website** - Python , APIs
 - Developed an AI-powered meeting assistant platform.
 - Integrated APIs for automation and intelligent response handling.

Certifications

- Generative AI for Software Development-IBM (March 2025)
- React-JS-Infosys (Feb 2025)
- C Sharp -Infosys (Oct 2024)
- Data Science, Artificial Intelligence, Machine Learning, Python, Coding – Advanced Credit Program, Chandigarh University (June 2024 – August 2024)
